PROFESSIONAL EXPERIENCE

MyEdMaster LLC

Data Scientist

Jun 2025 – Present

Bloomington, IN, USA

- Performed EDA and statistical analysis on athlete performance trends using **Python** and **SQL**, improving predictive accuracy by **18%** and informing data-driven coaching decisions.
- Built and maintained a centralized **SQL** dataset of **50K+** records with enforced extraction, cleaning, validation, and QA checks for consistent reporting.
- Delivered ad-hoc analysis via **Power BI** KPI dashboards and **Excel** pivot tables, translating findings into stakeholder-ready recommendations.

Rebisken Group

Data Analyst Intern

Aug 2024 – May 2025

Bloomington, IN, USA

- Implemented trend and anomaly detection with automated QA checks in **Python** and **SQL**, reducing false positives by **30%** and saving **10+ hours/week**.
- Built and refined stakeholder dashboards in **Power BI**, **Power Query**, and **Tableau**, increasing reporting usage by **40%** through consistent KPI storytelling.

GeoAI Lab, Indiana University

Research Assistant

Jan 2024 – Jul 2024

Bloomington, IN, USA

- Processed and validated **4TB+** datasets using **Python** pipelines with extraction, cleaning, and validation to achieve **95%** QA accuracy.
- Built reusable **Python** data-preparation modules and **R** analysis scripts, reducing preprocessing effort by **40%** across research deliverables.

Wadbros Imports

Data Analyst

Feb 2022 – Jun 2023

Mumbai, India

- Identified and corrected **500+** missing records via **SQL** joins and filters, reducing duplicate entries by **35%** and improving operational data quality.
- Built automated **Excel** workflows including Pivot Tables and VLOOKUP, cutting manual processing by **50%** and import delays by **12%**.

PROJECT EXPERIENCE

RecycloBot – NLP & Sensor-Driven Waste Audit Dashboard

Jan 2025 – May 2025

- Integrated Arduino sensor data with an NLP classifier achieving **90%+** accuracy; performed EDA on outputs to validate consistency and surface data quality gaps.
- Built a **Streamlit** dashboard to log predictions over time, enabling monthly KPI reporting on accuracy trends and environmental impact.

Unravelling the Red Sea – Oceanographic Data Analysis & Reporting

Jan 2025 – May 2025

- Extracted, cleaned, and analyzed multi-dimensional oceanographic data in **Python** to identify seasonal trends in Red Sea currents, salinity, and temperature.
- Created **ParaView** and **Matplotlib** visualizations to communicate data-driven seasonal patterns to research stakeholders through structured reporting.

Player Performance Predictor – UEFA Champions League 2021–22

Aug 2023 – Jan 2024

- Conducted statistical analysis and built custom impact metrics from scraped UEFA data to rank the most influential players in the 2021–22 season.
- Built and documented regression models to forecast next-season performance; visualized outputs with radar charts and heatmaps for stakeholder reporting.

Bitcoin Price Predictor – Multi-Horizon Forecasting & Reporting

May 2021 – Jun 2022

- Scraped and cleaned **11+ years** of BTC data in **Python**; engineered features and performed EDA across 1/7/15/30/90-day prediction horizons.
- Built **ARIMA**, **LSTM**, and **Prophet** models with rolling-window tracking; documented forecasting comparisons in structured analytical summaries.

TECHNICAL SKILLS

Core Analytics & Statistics: Data Analysis, Statistical Analysis, EDA, KPI Reporting, Hypothesis Testing

Querying & Data Transformation: SQL (CTEs, Joins, Window Functions), Excel (Pivot Tables, VLOOKUP, Advanced Formulas), T-SQL, Alteryx, Nielsen, Circana

Business Intelligence & Visualization: Tableau, Power BI (DAX, Power Query), DOMO, Streamlit, Matplotlib

Programming & Platforms: Python, R, Snowflake, BigQuery, Redshift, AWS (S3), Azure, Databricks, Git

EDUCATION

Indiana University, Bloomington

M.S. in Data Science; GPA: 3.61

Aug 2023 – May 2025

Bloomington, IN, USA

Mumbai University

B.E. in Computer Engineering; GPA: 3.63

Aug 2018 – Jun 2022

Mumbai, Maharashtra, India
